# Harbor

<https://harbor.bankingapi.ru/harbor/projects/168/repositories/lab05-karimov>

The screenshot shows the Harbor web interface for the 'lab05-karimov' repository. The page has a dark theme. At the top, there's a navigation bar with the Harbor logo, a search bar, a language selector (English), and a user profile (student55\_student55). On the left, a sidebar shows 'Projects' and 'Logs' links. The main content area is titled 'lab05-karimov' and has tabs for 'Info' and 'Artifacts'. Below the tabs, there's a 'SCAN' button and an 'ACTIONS' dropdown. A table of artifacts is displayed with the following columns: Artifacts, Pull Command, Tags, Size, Vulnerabilities, Annotations, Labels, Push Time, and Pull Time. Two artifacts are listed, both with 111 total vulnerabilities and 32 fixable ones. The interface also includes a search bar and a refresh button on the right side of the table. An 'EVENT LOG' button is visible on the far right.
